EDUCATION

B.Tech in Information Technology

Shri Vishnu Engineering College for Women

2023–2027

Current CGPA: 9.16/10

SKILLS

- Programming Languages: C, Python, Java, Javascript
 - Web Technologies: HTML, CSS, Django, Bootstrap, Flutter, React.js, Springboot, Node.js
 - Databases: MySQL, SQLite
 - Developer Tools: Git, GitHub, VS Code, Jupyter Notebook, copilot
 - Productivity Tools: MS Word, PowerPoint, Excel
-

PROJECTS

Viago – Connecting journeys one ride at a time

- Built a full-stack ride-sharing web application using **Django, DRF, SQLite, Bootstrap, JWT**.
- Implemented **user authentication, ride creation, booking system, and ride search APIs**.
- Designed a **responsive interface** for seamless ride offering and booking.
- Enabled users to **offer rides by posting trip details**, while others can **search and instantly book rides**.

Tech Stack: *Django, Django REST Framework, SQLite, Bootstrap, Flutter, Python*

BookWise (GitHub Link)

- Developed a full-stack web application using React, Spring Boot, and FastAPI to predict book popularity using machine learning.
- Trained a Random Forest model (82% accuracy) using feature engineering (pages, author, genre count)
- Designed a microservice architecture where Spring Boot communicates with a Python ML service via REST APIs.
- Built features for book search, categorization, reviews, ratings, and recommendations.
- Implemented reading progress tracking system for users with percentage completion logic.

Tech Stack: *Spring Boot, React Js, Java, MySQL, REST APIs, JWT Authentication, Machine learning, Maven*

AI-Powered Recipe Recommendation System

- Developed a full-stack recipe web application using React, Node.js, and MongoDB with features like search, favorites, reviews, and admin dashboard .
- Integrated a machine learning model (TF-IDF) to recommend recipes. Implemented advanced features like search, ratings, and personalized recommendations

Tech Stack: *React, Node.js, MongoDB, ML*

WORK EXPERIENCE

Mentor — SmartInterviews

Ongoing

- Selected as a mentor to guide peers in mastering data structures and algorithms.
 - Support learners by explaining coding problems, improving algorithmic logic, and enhancing interview preparation.
-

CERTIFICATIONS AND ACHIEVEMENTS

- NPTEL Certification: Data Structures and Algorithms in Python.
 - ISTE Project Expo: Certificate for “Data Structure Visualization”.
 - **Hack Overflow Hackathon – Participation Certificate**
Participated in a competitive hackathon focused on innovative problem solving and application development.
Organized by SRKR engineering college
 - **Member of Matheletes Club** — Organized and coordinated multiple mathematics-related events, quizzes, and problem-solving sessions for 100+ participants.
 - Conducted workshops and competitions to promote analytical thinking and mathematical aptitude among students.
-

CODING PROFILES

- **HackerRank:** makinenikavyasr1 **LeetCode:** makinenikavya
 - **CodeChef:** dandy_bowl_71 **CodeForces:** makinenikavyasri34
-
